MatisGROUP

When we started two decades ago, we had one vision – producing high-quality furniture at affordable prices, and one goal – to become the regional industrial leader. Now, after achieving both, we can proudly say that Matis is the biggest and most successful furniture manufacturer in the region, continuously investing in innovation and technology, but also nurturing the tradition in high-quality as a value incorporated in every aspect of our business.

From one family company with big ideas, three production groups, fully integrated in a successful and stable business system make the Matis Group we are today – the only company in the Balkan region to independently produce all categories of furniture for a complete home furnishing.

Matis

Matis – Panel furniture

Quality is in the detail, driven by the taste of those not only looking for aesthetics, but for long lasting pieces of furniture, our products are the result of carefully implemented engineering within our production processes.

Designed to fulfil the needs of the market, Matis's flexible technology systems provide high production capacities for many different products, both in smaller and larger production runs, achieving maximum capacity in both cases.

Matis Mebl

Matis Mebl – Upholstered furniture

We had a vision of expanding our range of products with upholstered furniture that would be recognised for its modern design and high quality at an affordable price.

Each item of furniture is manufactured with the highest attention to detail, ensuring the final product is of the highest quality. The production process, from the design of functional and modern furniture pieces, through to the manufacturing of high-quality construction elements, and all the way to choosing the highest quality fillers and fabrics for the upholstery, is done to the highest standards which give exceptional results.

Matisan

Matisan – Mattresses, pillows and Boxspring beds

Structure, quality, comfort and best support – those are the elements of every mattress, pillow or boxspring bed we produce at Matisan. You can have it individually or combined with our rich assortment of Matis beds.

NEW MECHANISM

In this product, we have implemented a new mechanism by German producer Hettich. This system is significantly improving door assembling efficiency as the wheel is on the sliding rail with one single step. Another great advantage is that even in the case of an eventual de-rail, the user can easily put the wheel back on the rail.

PROVEN QUALITY – German mechanism with aluminium rails
Innovation in sliding mechanisms. With one single step, wheel can be put back on the rail.
